

Cristhian Sanchez Medina - Fullstack Engineer + AI

Remote | difusal.com | +51 966551222 | difusal115@gmail.com | English: C1

Career Summary

Fullstack developer with 6 years of experience designing and scaling intelligent web systems. Skilled in JavaScript (Vue, React, Angular), Node.js, Laravel, and Python. Experienced in leading development decisions, mentoring junior devs, and integrating AI and automation workflows with OpenAI SDK, LangChain, and n8n to improve performance and productivity.

Career History

InterConnecta — Tech Consulting (Remote, USA) - Lead Fullstack Developer

Feb 2023 – Aug 2025

Led technical decisions across backend and frontend stacks, guiding a small team and mentoring juniors.

- Developed custom automations, APIs, and microservices for enterprise clients.
- Designed scalable architectures and integrated OpenAI SDK and n8n workflows.
- Built data-driven dashboards and optimized API performance across multiple projects.
- Enhanced CRM systems with automation logic and AI-powered assistants.
- Implemented monitoring and error-handling tools to improve system reliability and uptime.

Manzana Verde — South American Startup (Remote, Perú) — Fullstack Developer

Jan 2022 – Oct 2022

Fullstack development using Vue, React, Node.js, and Laravel in a fast-paced startup environment.

- Defined architecture decisions and implemented backend modules (NestJS, Prisma).
- Ensured smooth API–frontend communication and high scalability.
- Implemented CI/CD pipelines with testing and linting for consistent, high-quality deployments.
- Delivered maintainable, efficient systems and mentored new team members.

Watson Digital — Software Consulting Firm (Remote, Perú) — Fullstack Developer

Jan 2021 – Dec 2021

Developed backend logic and dynamic frontends (React, Angular, Vue).

- Create Docker-based applications and deploy to production faster
- Built and optimized APIs for client web platforms.
- Cross-platform app development
- Improved site performance and accessibility metrics.

Espanglish Marketing — Digital Agency (Remote, USA) — Fullstack Developer

Jul 2019 – Dec 2020

Maintained and enhanced client websites and eCommerce platforms.

- Developed Laravel and WordPress modules and automated reports.
- Managed AWS servers and integrated analytics via Google APIs.
- Fixed bugs and optimized queries in Node.js, and Python.
- Created reporting APIs to enhance data visibility and performance.
